	Academic Semester	Fall 2026-2027	**Academic level**	1
	Course Code	MA104	**Exam**	Quiz 1 — Model A
	Course Title	Discrete Mathematics		
	Time Allowed	30 Minutes	**Total Points**	10
	Course Instructors	Dr. Salah Moawad , Dr. Tamer Seuodi		

Student Name: _____ **Student ID:** _____ **Section:** _____

*Answer **all** questions. Use T / F in truth tables and 1 / 0 in membership tables.*

Question 1 — Choose the correct answer and give the reason (5 points)

One point each: circle the letter of the correct answer **and** write a short reason in the box.

1. If p is **T** and q is **F**, which proposition is **true**?

A) $p \wedge q$ **B)** $p \to q$
C) $p \leftrightarrow q$ **D)** $p \oplus q$

Reason:

2. Let $A = \{1, 3, 5\}$ and $B = \{3, 4\}$. Then $A \cup B =$

A) $\{3\}$ **B)** $\{1, 3, 4, 5\}$
C) $\{1, 5\}$ **D)** $\{1, 4, 5\}$

Reason:

3. $p \to q \equiv$?

A) $q \to p$ **B)** $\neg p \to \neg q$
C) $\neg p \vee q$ **D)** $p \wedge \neg q$

Reason:

4. Is $(\neg(p \to (q = r)))$ a **well-formed formula** (WFF)? If not, name the rule it breaks.

A) WFF **B)** Not a WFF

Reason:

5. Let $A = \{1, 2, 3, 4\}$ and $B = \{3, 4, 5, 6\}$. Then $A \triangle B =$

A) $\{3, 4\}$ **B)** $\{1, 2\}$
C) $\{1, 2, 5, 6\}$ **D)** $\{1, 2, 3, 4, 5, 6\}$

Reason:

Question 2 — Truth table (2.5 points)

(a) Complete the truth table of $((p \to q) \wedge \neg p) \to \neg q$. [2 pts]

p	q	$p \to q$	$\neg p$	$\neg q$	$(p \to q) \wedge \neg p$	$((p \to q) \wedge \neg p) \to \neg q$
T	T					
T	F					
F	T					
F	F					

(b) Let P be the proposition in (a). Is $P \equiv p \vee \neg q$? Justify using your table. [½ pt]

Question 3 — Membership table (2.5 points)

(a) Complete the membership table for the identity $(A \cup B) - B = A - B$. [2 pts]

A	B	$A \cup B$	$(A \cup B) - B$	$A - B$
1	1			
1	0			
0	1			
0	0			

(b) Is the identity $(A \cup B) - B = A - B$ **true** or **false**? Justify using your table. [½ pt]
